***Claim Rejections - 35 USC § 112***

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 14 recites a "planar shape roughly axisymmetric with respect to a center line of a stream flow," which does not accurately specify the contemplated relative orientation. The plane is "roughly bisected by" the center line, since "axisymmetric" implies rotational symmetry about the axis, which is not the case.

Also in claim 1, at lines 20-21, the same inaccuracy exists.

At line 16, the orientation of the tray is not clearly specified. It is suggested that following "placed", there be inserted "horizontally".

In claim 2, line 4, "axisymmetrical" does not accurately describe the relative orientation of the outlets and center line, since the symmetry is not rotational. It is suggested that "symmetrical" be used instead.

***Allowable Subject Matter***

Claims 1-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
